

TAOS

basic

TAOS *basic*

The best payment and control for your machines.

The TAOS system is the perfect solution to completely manage satellite vending machines. Features the most advanced payment systems to control up to a combination of 4 slave vendors.

This new concept allows the installation of a multi-product vending point that takes up less space and offers different payment systems. It has one of the widest ranges of payment modules on the market.

FEATURES

- Control unit with integrated payment systems capable of managing up to four dispensing units.
- Includes a display for viewing prices and credit.
- Possibility of installing J-LINK communications system and J-SUITE telemetry system. Online operation, with real time control of users and sales if we integrate customer loyalty cards.
- Metal and Bluetec finishes.
- Dimensions and weights: 1825x248x936 mm / 110,25Kg.

STRUCTURE

- Vandal-proof security lock with six anchor points and metallic coin entrance.
- High-capacity cash box with lock.
- As an option, includes tickets printer.

OPTIONS

- ADA model available.

CREDIT MANAGEMENT

- MDB or Executive protocol.
- Innovative Jofemar coin mechanism.
- Allows installation of card and banknote readers.

PROGRAMMING

- General on site programming with the machine's keyboard and the LCD screen messages.
- Compatible with the Jofemar EasyFlash hand terminal for stock control and accounting.
- Compatible with the latest telemetry systems for the end-to-end remote machine management.
- RS232 port with accounting data output.
